

60-00-4, (Ethylenedinitrilo)tetraacetic Acid

This synthetic reagent, also known as Ethylenediaminetetraacetic Acid, presents as a white powder. It is known to be slightly soluble in NaOH. For best results, store in a tightly closed container in a dry and well-ventilated place. (Ethylenedinitrilo)tetraacetic Acid is incompatible with strong oxidizing agents. This chemical causes serious eye irritation.

Molecular Formula	Molecular Weight	CAS Number
C ₁₀ H ₁₆ N ₂ O ₈	292.24	60-00-4
