

6381-92-6, (Ethylenedinitrilo)tetraacetic Acid Disodium

This reagent, also known as EDTA, Disodium Salt Dihydrate, presents as a colorless solid. It is known to be soluble in water. For best results, store in a tightly closed container in a cool, dry and well-ventilated place. (Ethylenedinitrilo)tetraacetic Acid Disodium Dihydrate is incompatible with strong oxidizing agents. This chemical is harmful if inhaled and may cause damage to organs through prolonged or repeated exposure.

Molecular Formula	Molecular Weight	CAS Number
C10H14N2Na2O8•2H2O	336.21	6381-92-6

Solubility	Soluble in cold water.
Reactivity	No other information at this time.
