

RE: Residual Solvents - Tranexamic Acid, USP (Cat# T4046)

To Whom It May Concern:

Thank you for your interest in Spectrum high quality chemicals.

The Class 2 solvent, chlorobenzene, is present in the above mentioned material below the limit of 360 ppm. The Class 2 solvent, Xylene, is present in the above mentioned material below the limit of 2170 ppm. The Class 3 solvent, ethanol, is present in the above mentioned material below the limit of 5000 ppm. The other residual solvent, Ethyl propionate, is present in the above mentioned material below the limit of 5000 ppm.

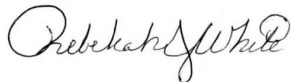

These limit complies with the requirements of the USP <467> Residual Solvents and the ICH Q3C Residual Solvents Guideline.

No Class 1 or other solvents are used or produced in the manufacture of this product.

1) Tranexamic Acid, USP – T4046
