

Sterile IPA 70%

Acta Medical's Sterile Isopropyl Alcohol is 70% IPA / 30% USP WFI. It is designed to meet USP <797> / <800> cleanroom requirements. Spray bottles contain a 0.22 micron filter. Air drawn into the bottle with each pull of the spray trigger passes through a 0.22 micron filter, preserving sterile integrity of its contents. Alcohol is 0.1 micron filtered, and each bottle is double bagged and gamma irradiated.
