

Giving Single-Use Apparel,  
Gloves, Respirators and  
Safety Eyewear a New Life

# What is THE RIGHTCYCLE™ PROGRAM?

The RightCycle™ Program is the first large-scale recycling program for non-hazardous\* lab, cleanroom and industrial waste. Since 2011, we've helped more than 1,000 customers divert 5.5 million pounds of waste. We can do the same for you by turning your used PPE into patio furniture and other useful products.

**OVER 5.5  
MILLION  
POUNDS**  
and counting —  
waste diverted  
since 2011

Apparel items, eyewear, respirators and nitrile gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

For more information, visit The RightCycle™ Program:
