

## Eyesaline\* Wall Emergency Eyewash Stations

- Description** • Holds bottles firmly in place with easy access in an emergency
- Durable, open-face design wall station can be mounted easily with provided fasteners
  - Integral overhang protects bottles from dust and debris, minimizing maintenance requirements
  - Wall station comes with a personal eyewash or body flush that has an extended flow opening to provide longer flow rate than conventional bottles
  - Solution renders high visibility in a hazardous area and is readily available for emergency flushing and decontamination of the eyes, face and body
  - Blow-fill-sealed bottle contains a buffered, saline solution that is sterile and superior to tap water for emergency eye care
  - 32 oz FDA-grade polyethylene bottle ensured with quality, lasting value features lot numbers and expiration dates
  - 36 month shelf life from the date of manufacturing
  - Complies with ANSI Z358.1 (Supplemental Equipment)
  - Secondary device does not meet ANSI 15-minute flushing requirement
