

SP Bel-Art Sterileware Sterile Long Handle Sampling Spoons

Description • Designed to gather small amounts of sample material, especially in hard to reach containers

- Long handle reaches into jars, bottles and other confined areas
- Minimizes the potential of personal contact with sampled material
- Sterile†, FDA grade polystyrene safe for food, drug and cosmetic use
- Individually packaged, sterilized by gamma irradiation, lot stamped for accurate lot tracing, and shipped with a Certificate of Processing for Sterilization

†Note: Sterilized products are not returnable.
