

Labconco RXPert Single Filtered Balance Systems

Description • Designed for the pharmaceutical market

- Single HEPA filtered enclosures include an all-in-one, factory-installed, canopy and damper that allows for thimble ducting to the outside
- Space-saving design constructed of a static-dissipative, powder-coated aluminum frame, steel rear plenum & baffle, and tempered safety glass
- Exhaust HEPA filter, 99.99% efficient on particles 0.3 micron in size (5 and 6 ft. models require two)
- Provides safer filter replacement using its true bag-in/bag-out HEPA filter disposal system
- Replacement bag for bag-in/bag out HEPA filter available (5 and 6 ft. models require two)
- Class I Enclosure meets the USP requirements for non-sterile compounding
- Provides user protection by keeping powders and particulates contained during hazardous drug manipulation
- All models include a built-in analog airflow monitor
- All listed models below are 115V, 60 Hz (230V models are available with CE Conformity Marking)
- Select models include a stainless steel or solid epoxy work surface
- Canopy adds 4 in. to overall height
- Sash opening height is 9.4 in. (12 in. on Tall models)

All Models Require:

- Supporting base (see Labconco Telescoping Base Stands or Standard Storage Cabinets)
- Work surface (if not already included) (see Labconco Stainless Steel or Solid Epoxy Dished Work Surfaces)

In addition to the built-in (included) blower, Single HEPA Filtered models require (not included):

- Remote blower (see Labconco Remote Blowers)
- Ductwork (call for details)

Image(s) are representative of the product group and not necessarily the individual product.
