

Topi-CLICK 140 Topical Dispensing System

Description • Topi-CLICK 140 uses the same technology as the Topi-CLICK 35, but with four times the volume at 140 mL

- Friction-free, domed applicator pad with a 4Port dispensing design provides a comfortable experience when applying larger doses of medication
- Accurately measure and apply topical medications to intended areas
- Decreased risk of improper dosing and contamination
- CLICK-Assist Patient Feedback System improves patient compliance and therapy outcome with stronger audible CLICKs, heavier tactile dosing sensations, and improved visual indicators
- Dispenses 0.5 mL per click
- **140 mL total capacity**
