

Heathrow Scientific Self Venting Wash Bottles

Description • Clear and informative product safety information†

- The closure and stem are molded in one piece to make them leak-proof
- The angled neck and tip provide a uniform stream of liquid
- The tip can be cut back if required to increase the flow
- Wide bottle mouth makes filling easier
- Non-metallic vent that prevents the risk of solvent leakage
- Six named chemicals, a self labeling, and assorted pack of bottles to choose from
- 500 mL bottle size
- Assorted Pack includes one of each, Acetone, Distilled Water, Isopropanol, Ethanol, Sodium Hypochlorite and a Self labeling bottle
- With the exception of the bottle designed for Sodium Hypochlorite, which is a white LDPE bottle for light protection and has a HDPE closure, the bottles are made from LDPE, with a PP closure
- Self Labeling Bottles must only be used with chemicals that are safe and compatible with LDPE

†The information provided on the front of each bottle is specific to the product contained and includes the following - the Chemical Abstract Service (CAS) No., National Fire Protection Association (NFPA) codes and symbols, Protective Equipment Symbol (PES), Target Organ Information and Hazard Codes.

Image(s) are representative of the product group and not necessarily the individual product.
