

Heathrow Scientific Color Coded Wash Bottles

Description • Color-coded wash bottles for easy identification

- The closure and stem are molded in one piece to make them leak-proof
- The angled neck and tip provide a uniform stream of liquid
- The tip can be cut back if required to increase the flow
- Wide bottle mouth makes filling easier
- Color-coding for user, application, or location identification
- Bottle is made from LDPE, with a polypropylene closure
- 500 mL bottle size
