

BrandTech PCR 8-Strip Tubes

Description • PCR tube strips are manufactured from high-quality virgin plastics for excellent, reproducible results in most PCR applications, and are manufactured without lubricants or chemical additives that can contaminate reagents and samples

- Flexible PCR strips for easy tube division
- Standard profile tubes are compatible with most thermal cyclers
- PCR products are free from DNA, DNase, RNase, and other PCR inhibitors
- Thin, uniform tube wall thickness and rigid upper plate for optimal thermal transfer, short cycle times, stable product handling and consistency
- Cap tool for reliable, soft-touch sealing and detaching of PCR caps
- Compatible with most 24-, 32-, 48- and 96-well thermal blocks
- **Caps not included**
