

Thermo Scientific* Orion* AQUAfast Tablet Reagents

Description • Use Thermo Scientific* Orion* AQUAfast Tablet Reagents with Orion* AQUAfast colorimeters and Thermo Scientific* Orion* AquaMate Vis and UV-Vis spectrophotometers

- These convenient, rapidly dissolving tablets can be precisely added to samples without leaving residual reagent in the packaging and are very stable for long shelf life accessibility
- Tablet reagents measure alkalinity, aluminum, ammonia, boron, chloride, chlorine, chlorine dioxide, copper, DEHA, hardness, hydrazine, hydrogen peroxide, iron, manganese, nitrate, nitrite, ozone, pH, phosphate, potassium, silica, sulfate, sulfide and zinc
- For use with: Orion AQUAfast AQ4000 (Cat. No. 246-13384), Orion AQUAfast AQ3700 (Cat. No. 246-92065), and discontinued Orion AQ2 series meters and other colorimeters
- Additional shipping charges will be added for hazardous items
