

Burkle DispoPipette LaboPlast and SteriPlast Disposable Samplers

Description Simple disposable sampler for taking samples of low viscosity media. If the DispoPipette is inserted into the liquid opened, an all-layer sample is obtained. If it is closed while it is inserted up to the sampling point and then opened, a target point sample is obtained. Very easy to operate. With two opening sizes for different viscosities.

- All-layer and target point samples possible
- HDPE
- Cleanroom manufactured
- Optionally sterilized by gamma rays
