

Bottle Adapter Inserts

Description • Plastic inserts fit into bottle openings to allow oral dispensers to be inserted and easily filled without a mess

- Bottle caps can be used with adapters in use.

Non-sterile

- Available in four sizes: 20 mm, 24 mm, 28 mm and 33 mm
- Please note that the bottle adapter insert sizes listed correspond to the outer neck of bottle and not the inside opening

Image(s) are representative of the product group and not necessarily the individual product.
