

Covidien In-Room* Sharps Containers with Counter Balanced Lid

Description • Minimizes the potential for overfilling by stopping in the "FULL" position when it reaches maximum capacity

- Unique lid design limits accidental or intentional access to container contents for pediatric and high-risk areas
- Allows for visual monitoring
- Economical forced horizontal drop maximizes container volume
- OSHA Regulation 29 CFR 1910.1030(d)(4)(iii), "During use, containers for contaminated sharps shall be maintained upright throughout use..."
