

ChemoPlus IVA Seals for Bottles and Vials

Description • IVA seals for bottles and vials are sterile seals that protect point of entry of I.V. admixtures from contamination and accidental double dosing

- Packaging is USP 797 compliant
- Liner, dispenser and core are non-linting and can easily be wiped down
- They have a dual warning system in which seals self-destruct upon attempted removal, and needle punctures are highly visible in laminated foil
- Latex-free and PVC-free, reduces latex and other allergies
- Sterile IVA Seals protect point of entry of I.V. admixtures
- Manufactured of laminated foil making needle punctures highly visible
- Several bright colors make it easy to establish highly visible protocols
- Compact boxes require less storage space
- Unused medication may be returned and reissued with confidence if IVA seals are intact, reducing waste
- Variety of sizes to fit most vial and bottle tops, a convenient source for all your security seals
