

## Cytiva Whatman Three Colors pH Paper Reel

**Description** • Range of pH indicators to meet specific needs

- Ease-of-use with unsurpassed accuracy and consistency
- Indicator papers for the rapid determination of pH values
- Impregnated with a mixture of several indicators
- On contact with the sample solution they assume a particular color
- A check against the color comparison table supplied allows the pH to be determined
- The strip has three separate indicator dye color bands
- The combination of color change resulting from each test is compared with the color-coded comparison chart, printed on the dispenser, giving improved speed and accuracy in reading
- Instant pH readings
- Accurate for a wide range of routine pH testing
- Convenient and portable
