

Foxx Life Sciences EZgrip Polypropylene Carboys

- Description** • Foxx Life Sciences' Polypropylene EZgrip Carboy is an advanced fluid handling system developed with the end-user in mind
- The ergonomically designed EZgrip body is coupled with VersaCap technology to provide the user with an easy-to-use and easy-to-clean carboy
 - The EZgrip Polypropylene Carboy is made from translucent USP Class VI, FDA Grade autoclavable resin, which offers good chemical resistance and heat stability
 - The recommended autoclaving cycle is 15 PSI for 20 minutes at 121°C
 - The Carboy body includes design features that allow the user to easily hold and manipulate during lifting, filling, and pouring
 - VersaCap technology provides interchangeable, leak-proof top connections
 - The EZgrip Carboy features include large top handles, molded hand grips in the base, easy-to-read metric graduation marks certified to +/-5% accuracy, and the carboy material molded into the side for easy identification
 - The 20L and 40L carboys offer an EZfil 120 mm neck to simplify filling and cleaning, while all other sizes feature an 80 mm neck
 - All Carboys are compatible with the VersaCap technology for interchangeable top connections
