

## Foxx Life Sciences Autofil Filtration Funnel ONLY

**Description** • Upper filter funnel with dust cap that contains a 0.1 m (mycoplasma filtering grade), 0.2 m (sterilization grade), or 0.45 m (clarification grade) asymmetric PES membrane

- These membranes are low protein binding and surfactant free
- Forward-facing, large, raised graduation marks for easy reading
- Conveniently sold presterilized
- Made with Class VI materials
- Manufactured in a Class 100,000 clean room
- Manufactured in an ISO 13485 facility in North America
- Gamma sterilized in the USA
- Bottles available separately
- A stable, low-profile, patented optional pedestal base or a low cost ring-stand cradle is available. Each holder provides a stationary vacuum hose connection that makes set-up and use quick and efficient while preventing spills and tissue culture hood contamination. These holders also allow for hands-free operation of the filter unit (Autofil Hardware sold separately).

Image(s) are representative of the product group and not necessarily the individual product.
