

Foxx Life Sciences EZwaste Safety Vent Carboys, 75L, HDPE, Chemical Exhaust Filter

Description • The Safety Vent Carboy 75L HDPE with VersaCap 120 mm EZwaste Solvent Waste System is designed to be an affordable solution for HPLC liquid waste disposal

- Each system is manufactured to safely collect waste from two HPLC machines
- This system features an activated carbon filter which traps volatile organic compounds from being released into the air
- This prevents chemicals from being inhaled by lab workers and provides an easy mechanism of disposal for vapor wastes
- The EZwaste Solvent Waste system also features a closed loop design which protects against leaks and spills, improving overall lab safety

- The EZwaste Solvent Waste System is designed to be an affordable solution for liquid waste disposal
- Each system is manufactured to safely collect waste from one or more HPLC systems while the carbon exhaust filters improve air quality by capturing potentially harmful vapors emitted from solvents
- Each system includes a 75L HDPE carboy, two 120 mm VersaCap (one open top for waste collection and one closed top for safe transport), EZ Top Adapter, 1 carbon exhaust filter, and plugs for unused ports

Depending on application, carbon exhaust filter life cycle may vary

- Tube fittings secure waste tubes to carboy providing the closed system necessary to prevent spills (plugs included for unused ports)
- 90° adapter included for maximum storage flexibility
- Replaceable sulfur cured EPDM gasket for high chemical compatibility against aggressive organic solvents

Specifications

- Height (90° Filter Position): 32.75 in. (832 mm)
- Height (Vertical Position): 38 in. (965 mm)
- Height (Closed Cap): 30 in. (761 mm)
- Length: 14.4 in. (365 mm)
- Width: 18.7 in. (475 mm)
- Approximate Capacity (Max.): 80L (21 gal)
- Carboy Material: HDPE
- Filter Length: 6.97 in. (177 mm)
