

## Foxx Life Sciences EZwaste HD 10L Closed System for HPLC Solvent Waste, HDPE Reusable Carboys

**Description** • These 10L systems allows for the safe and effective collection of waste in the laboratory

- The safety and ease of use for laboratory technicians is a high priority
- The closed-loop design prevents inhalation of volatile organic compounds
- The EZwaste Solvent Waste System is designed to be an affordable solution for containing liquid chromatography waste
- Each EZwaste Solvent Waste System comes with two 83 mm VersaCap (one open top for waste collection and one closed top for safe transport), fittings, plugs for unused ports, and a chemical exhaust filter
- Depending on application, carbon exhaust filter life cycle may vary

- Tube fittings secure waste tubes to carboy, providing the closed system necessary to prevent spills
- A 90° adapter is included for maximum storage flexibility
- A replaceable sulfur cured EPDM gasket is included for high chemical compatibility against aggressive organic solvents
- Each system is manufactured to safely collect waste from two HPLC machines
- This system features an activated carbon filter, which traps volatile organic compounds from being released into the air
- This prevents chemicals from being inhaled by lab workers, and provides an easy mechanism of disposal for vapor wastes
- The EZwaste Solvent Waste System also features a closed-loop design, which protects against leaks and spills, improving overall lab safety

- Affordable solution for HPLC liquid waste disposal
- VersaCap technology
- Carbon exhaust filter traps VOCs
- Variety of O.D. tubing port configurations
- Hose Barb options for 1/4 or 3/8 in. I.D. tubes

### Specifications

- Height with Cap: 19.5 in. (496 mm)
- Height without Cap: 19.2 in. (487 mm)
- Filter Length: 6.97 in. (177 mm)
- Filter Base Diameter:
