

North* P100 Particulate Filters

Description • North's P100 Filter/Cartridge is 45% thinner and over 60% smaller in overall volume

- This small P100 Filter/Cartridge is lighter for enhanced comfort and reduced worker fatigue
- The smaller size provides a wider view of the work area, and fits under face gear such as welding helmets and faceshields
- It is available in combination with all North chemical cartridges as a "Piggyback"
