

H-B DURAC Brix Sugar Scale Plain Form Hydrometers; Traceable to NIST

Description • Used in the food and beverage and other industries for measuring % sucrose by weight

- These plain form hydrometers are available in various ranges from -5° to 71° Brix
- Packaged with a multi-language (English, French, German, Italian, Portuguese, and Spanish) Statement of Accuracy indicating accuracy traceable to NIST
- Lead free ballast and glass
- Individually serialized
- Temperature standardization of 20°C
- Hand inspected by a U.S. quality team

†Note: Hydrometers should be stored in a clean, dry, safe place, and should not be subjected to extreme temperatures.

Image(s) are representative of the product group and not necessarily the individual product.
