

Foxx Life Sciences Borosil Boiling Flasks, Round Bottom, Ground Glass Neck

Description • Borosil brand Flasks are designed to deliver the best combination of thermal shock resistance along with physical strength and resistance to chemical attack

- Borosil's Round Bottom Boiling Flasks with Interchangeable Joint comply with ISO 4797
- Uniform wall thickness distribution and the round bottom shape of these flasks make them ideal vessels for heating
- Generally used in the distillation and extraction processes
- Large, durable matt-finished enameled area for marking

Specifications

- Material: 3.3 Borosilicate
- Color: Clear
- Class/ Quality Grade: Type I
