

Foxx Life Sciences Borosil Amber Glass Volumetric Flasks, Class A, Wide Mouth, Glass Stopper

Description • Borosil Amber Volumetric Wide Mouth Flasks with Interchangeable Solid Glass Stoppers are manufactured from 3.3 Borosilicate I.D. control tubing

- Each flask is individually calibrated with an automatic, computer controlled, calibration machine, providing a more accurate volume
- Borosil's Volumetric Flasks are designed to give the best combination of thermal shock resistance, physical strength and resistance to chemical attack
- All Amber Volumetric Flasks have permanent ceramic white printing
- Amber coating is on exterior surfaces to benefit use with light sensitive solutions
- Specifically designed wide mouth for testing bigger diameter tablet without making it in powder form
- Comes with Batch or Individual Certificate. 5 to 20 mL supplied with trapezoidal shape for better stability Certified and Calibrated at 20°C

Specifications

- Material: 3.3 Borosilicate
- Color: Amber
- Neck Type: Solid Glass Stopper
- Neck Specification: Grounded
- Class/ Quality Grade: Type I, Class A
