

SP Bel-Art SP Bel-Art Bluetooth Verification Thermometer

Description • Remotely monitor temperature by broadcasting readings to any Apple or Android smartphone or device with Bluetooth 4.0 or better utilizing the free THERMSmart app

- Monitor critical environments without a physical connection; maximum signal distance is approximately 40 meters
- Alarm sounds to alert user if temperature falls outside of the set parameters
- Includes countdown timer function
- Alarm and timer settings savable for reuse
- LCD screen for on-unit monitoring
- App can trigger indicator light for unit identification
- Indicators include active alarm state and low battery
- Verification model provides accurate temperature reading without sample contamination by using a glass bead filled bottle (included) which mimics the sample
- Includes Certificate of Compliance indicating accuracy for 4 temperature points and multi-language (English, French, German, Italian, Portuguese and Spanish) instructions
- Individually serialized, CE marked and RoHS compliant
- Batteries included
