

Labconco Purifier Logic+ A2 Biosafety Cabinets

Description • The Purifier Logic+ Class II A2 Biosafety Cabinet excels in user comfort and functionality

- Decades of industry leading advances in ergonomic design have shaped the Inclination Technology Suite that includes a 10° angled sash, patented curved air grille with built in armrest, fully accessible controls and eye-level mounted color display with MyLogic operating system
- MyLogic provides intuitive programming, color coded menus, status messages and alarms with diagnostic troubleshooting - all using clear messages and imagery
- Using ECM blower technology, the Logic+ uses the Constant Airflow Profile (CAP) to maintain a precise volume of air as the filters load
- In addition, the cabinet will continuously display the HEPA filter life remaining and cabinet status
- The cabinet provides personnel, product and environmental protection and is suitable for work in all biosafety levels
- These biosafety cabinets are designed to discharge HEPA-filtered exhaust air directly into the laboratory, or into an exhaust system through the optional Canopy Connection (available separately)
- In addition, some models have base stands and/or an Accessory Package (UV light, service fixture(s) and Vacu-Pass Cord and Cable Portal) included

Image(s) are representative of the product group and not necessarily the individual product.
