

Benchmark Clave* 28 Research Autoclave

Description • This 28 liter model features an increased chamber size with a diameter of 32 cm

- With this larger internal chamber, the BioClave 28 is Benchmark's only model capable of sterilizing 1 and 2 liters flasks (and bottles)
- Despite the increased chamber size, the unit is still relatively compact, suitable for benchtop use
- Operation is fully automatic, meaning all segments of operation (fill, sterilize, exhaust and dry) commence and run to completion by simply pressing "Start"
- An optional thermal mini-printer (Cat. No. 315-10008) is also available for providing a record of sterilization parameters
- In addition, a built in USB port allows for transfer of these parameters to a computer for printing or storage of cycle data
- BioClaves offer three cycle options (standard programs), which are preset for the sterilization of liquids, wrapped instruments or unwrapped instruments/plastic ware
- A "Dry Only" option is also available for additional drying time to be added to the end of a cycle
- For special applications, requiring variations in cycle parameters, all settings on the BioClaves are fully adjustable
- Accepts bottles/flasks up to 2L
- Fully automatic, just press start
- Adjustable sterilization times
- USB port for digital documentation of records
- Built in water tank, does not require connection to an external water supply

Specifications:

- Chamber Volume: 28L
- Max. Pressure: 60.5 PSI (2 Bar)
- Chamber Dimensions: 12.6 x 16.4 in. (32 x 41.7 cm)
- Exterior Dimensions: (W x D x H): 25 x 25 x 22 in. (63.5 x 63.5 x 55.9 cm)
- Weight: 209 lbs (95kg)
- Electrical: 200 or 240V, 50-60Hz 2300W
- Warranty: 1 Year
