

Labconco Basic 70 Laboratory Hoods, 6 ft.

Description • These Basic Hoods are designed specifically for light duty applications where safe ventilation is required

- Constructed of powder-coated steel, Basic Hoods are economical and have a smaller overall height and depth than traditional hoods so they fit in areas with low ceilings or narrow aisles
- Both standard and built-in blower models are available
- 6-foot nominal width

Features (All Models):

- By-pass airflow design
- Durable glacier white powder-coated 16 gauge steel exterior and interior resists chemical exposure
- Vertical-rising tempered safety glass sash
- Adjustable two-piece baffle
- Curved air foil that lifts off for cleaning
- Removable front panel for access to electrical wiring
- Right side fixture panel factory-prepared to accept up to three service fixtures, one electrical duplex and one airflow monitor (kits sold separately)
- Right interior wall factory-prepared for one cupsink and turret (cupsink and turret kit sold separately)
- Powder-coated steel 10.3 in. OD exhaust connection
- ETL listed (115V models)
- CE conformity (220V models)

Explosion-Proof Models Feature:

- Explosion-proof incandescent light fixture (requires installation; bulb not included)
- Furnished without switches and wiring as these must conform to local codes

Models with Blower Module Feature:

- Belt-driven blower with adjustable sheave
- Powder-coated steel base and housing
- Corrosion-resistant coated steel impeller

Options:

- Versatile built-in blower that mounts on top of the hood liner, above the hood or at a remote location
- Explosion-proof light and blower
- International electrical configurations
- Unassembled hoods

Required Accessories:

- Remote Blower (except Bui
