

Celltreat Sterile Tissue Culture Flasks

Description • Uniform hydrophilic surface ideal for consistent cell attachment

- Stable base enables filling with flask standing upright
- Convenient zip-closure bag is a practical alternative to folding and taping opened bags
- Vent caps feature 0.22 µm PTFE hydrophobic membrane
- Larger opening and canted neck design for easier access; ideal for cell scrapers
- Molded, interlocking T design for improved stacking - included on 75, 182 & 300 cm² and 250, 600 & 850 mL size flasks only
- 182 cm² flask offers more growth area than standard 175 cm² flasks
- Thicker, more durable walls
- Flask is printed with lot number and expiration date for easy identification and tracking
- Manufactured from medical grade virgin polystyrene
