

## Celltreat Tissue Culture Treated Roller Bottles

### Description • Large knurled cap for easy grip

- Manufactured from medical grade virgin polystyrene
- Tissue Culture Treated Roller Bottles have uniform hydrophilic surface ideal for consistent cell attachment
- Easy-to-read black printed graduations
- Packaged sterile in individual bags
- Larger growth area options maximize valuable laboratory space and save time by reducing repetitive tasks
- Ideal for large-scale cell growth
- Each bottle has more than twice the cell growth area as 850 cm<sup>2</sup> bottle
- 4250 cm<sup>2</sup> ESRB Roller Bottle offers the equivalent growth area of 5 standard 850 cm<sup>2</sup> bottles, using 40% less plastic
- Tissue Culture Treated Roller Bottles have uniform hydrophilic surface ideal for consistent cell attachment
- Expanded Surface Roller Bottles (ESRB) feature horizontal ribs to bathe cells more evenly than bottles with vertical ribs
- 1800 and 4250 cm<sup>2</sup> bottles fit into any roller apparatus that can accommodate 2 standard 850 cm<sup>2</sup> bottles
- Available with vented cap for open systems
- Vented caps feature 0.22µm hydrophobic membrane
