

## Celltreat Inoculating Loop, Sterile

**Description** • For inoculating, streaking cell culture plates and dishes

- Flexible design provides easy access to tubes and dishes and is gentle on delicate agar or other surfaces
- Color coded for easy identification
- Polypropylene
- Sterile (gamma irradiated)
- Non-pyrogenic
- RNase/DNase free
- Available bulk packed or individually wrapped in peel-to-open paper/plastic wrappers

Image(s) are representative of the product group and not necessarily the individual product.
