

Celltreat 50 mL Centrifuge Tube Filter, PES, Sterile

Description 50 mL Centrifuge Tube Filter System

- Eliminate a sample transfer step by filtering directly into a 50 mL tube
- Polyethersulfone (PES) membrane for high flow and low binding
- Two membrane pore sizes: 0.22 or 0.45m
- Centrifuge Tube Filter Systems include tube filter, centrifuge tube and cap
- Centrifuge Tube Filter Systems are packaged sterile (gamma irradiated) in bags
- 1 Centrifuge Tube Stand included with each case of Centrifuge Tube Filter Systems
- Centrifuge Tube Stand also available separately (Cat No. 630-11160)
