

UVP EL Series Six Watt UV Lamps

Description • Manufactured with a durable, extruded metal housing and scratch resistant powder paint

- Select from a large range of lamps with single or multiple wavelengths and watts
- Rugged design is excellent for high usage
- The lamps are lightweight for easy holding or place the lamp in the stand or cabinet for hands free operation
- The built-in reflector enhances UV illumination
- Models available include 254 nm shortwave, 365 nm longwave or a combination UV wavelengths or UV and white light versions
- Basic configuration offers one UV and one white light tube -- the advantage of white light or UV illumination from one unit
- Use white light when working with materials in a dimly-lit area
- Twin models have two tubes of the same wavelength or the 2UV Models use two different wavelengths
- The 3UV Model available only in the eight watt lamp, gives three UV wavelengths in one lamp
- No other lamp offers this versatility
- Easily switch among the three wavelengths (longwave, shortwave and midrange UV) as your application requires

Specifications:

- Watts: 6
- Light Sources: 254 nm, 302 nm, 365 nm, White (refer to catalog numbers for details on wavelengths for each lamp)
- Housing: Metal housing with scratch resistant powder coat
- Cord length: 8 ft.
- Dimensions (L x W x D): 12 x 3.8 x 2.5 in. (302 x 96 x 64 mm)
