

## Veltek ASEPTI-CLEANSE Dispenser

**Description** • Several options exist to simplify the dispensing of VAI products

- The DEC-50 minimizes cross-contamination by enabling the user to simply place the back of their gloved hand on the DEC-50 Actuation Arm to dispense VAI products rather than handle the container
- The pump and trigger spray mechanisms simplify dispensing VAI products while delivering dosed quantities to prevent overuse

- ASEPTI-CLEANSE is a hands-free dispensing system for select VAI products
- VAI developed the ASEPTI-CLEANSE to meet the requirements of cGMP clean room operations
- The dispensing system is the most advanced infrared sensor dispensing system available in the pharmaceutical and biotechnology industries
- ASEPTI-CLEANSE can be mounted directly to glass or walls, which makes it an excellent choice for gowning rooms and aseptic manufacturing areas
- It can be set to dispense approximately 1, 2, or 3 mL of solution
- Simply place your hand underneath the ASEPTI-CLEANSE to deliver a pre-measured dose of solution, to the hand, with no contact between the user and the ASEPTI-CLEANSE
- Our ASEPTI-CLEANSE system works exclusively with our DECON-HAND and DECON-AHOL WFI Formula

- Our new ASEPTI-CLEANSE Bottles, part of our DECON-AHOL WFI Formula Product Line and DECON-HAND Product Line, Part Numbers DECWFI-BOT-01, DECWFI-BOT-02, DH-10, DH-09 replace the previous ASEPTI-CLEANSE Bag, Part Numbers DECWFI-BAG-01, DECWFI-BAG-02, DH-07, DH-08
- The ASEPTI-CLEANSE Bottles use a new and improved ASEPTI-CLEANSE operating system

- Photo-eye operated
- Equipped with dual power supply
- 4 D Cell batteries (Can last over 1 year)
- Connector for Aux. DC power in
- Mountable directly on glass or walls
- Water resistant
- Americans with Disabilities Act (ADA) compliant
- UL Medical Device listed
- Able to be maintai
