

Veltek DECON-AHOL WFI* Formula 70% Isopropyl Alcohol (IPA), Spray Bottle, Sterile

[SDS](#)

Description • 70% USP Isopropyl Alcohol and 30% USP Water for Injection, 16 & 32 oz Attached Trigger Spray

- DECON-AHOL WFI Formula is an EPA registered sanitizer and disinfectant
- It is a perfect choice for disinfecting and sanitizing cleanrooms and controlled areas in health care institutions, biopharmaceutical, medical device, and diagnostic manufacturing facilities
- The attached trigger spray nozzle can be adjusted to the mist, stream, or off position
- Trigger spray containers are an excellent choice where the use of aerosol containers is not possible
