

3M Formaldehyde Organic Vapor Cartridge/Filter

Description 3M Cartridge is designed to render respiratory protection from formaldehyde, certain organic vapors and particulates at concentrations up to 10 times and 50 times the permissible exposure limit with half Facepieces and full Facepieces respectively. This cartridge is compatible with 6000 and 7000 series air purifying respirator comprising P100 filter and bayonet style cartridge holders. Cartridge measuring 3.4 in. x 4.2 in. is used in a variety of applications such as laboratories, wood processing, carpet manufacturing and primary metals manufacturing. Cartridge is provided with a swept-back design for increased field of view and balance.

Features:

- Particulate filter is permanently attached to cartridge for easy, one-step assembly
- Unique design for enhanced comfort and visibility
- When properly fitted, helps provide respiratory protection from formaldehyde, certain organic vapors as well as non-oil and oil particulates at concentrations up to 10 times the Permissible Exposure Limit (PEL) with half facepieces or 50 times PEL with full facepieces
- Full facepieces must be quantitatively fit tested to claim assigned protection factor above 10 in negative pressure mode
- OSHA requires that gas-proof goggles be worn with half facepiece respirators when used against formaldehyde
