

Benchmark Scientific Accuris* Precision Balance with External Calibration, 500g

Description • Accuris laboratory balances provide accuracy and precision for researchers who demand results

- The Precision Series use Variable Capacitance Technology with gold plated capacitors on a ceramic load cell
- This reliable technology delivers accurate readings with high repeatability

Specifications

- Capacity: 500g
- Readability: 0.001g
- Calibration: External
- Pan Size (Round): 11.5 cm (4.5 in.)
- Weighing Units: g, oz, ct
- Display: LCD
- Draft Shield: Yes, Glass
- Exterior Dimensions: 8" x 13.75" x 3.5"
