

Waring 1 Gallon Copolyester Blender Container with Blade Assembly and Lid for CB15 Series Blenders

Description • Designed for use with CB15 series blenders, this Waring CAC170 BPA-free copolyester blender jar has a large 1 gallon capacity that makes it perfect for large batches of soups, salsas, sauces, marinades, dressings, purees, batch cocktails, and smoothies

- The container is stackable for convenient space-saving storage and is made of virtually unbreakable copolyester to stand tough against the rigorous demands of your commercial kitchen, retirement community, or bar
- It comes with a high-performance stainless steel blade assembly that helps make quick work out of whatever you're blending, while the rubberized lid allows for hot or cold blending and features a removable center cap that is great for adding ingredients and reducing pressure during hot food blending
- The jar boasts an ergonomic handle that combines with an integrated spout for easy pouring
