

## Labconco Benchtop Airo Hoods, Two Service Fixtures

**Description** The Protector Airo Filtered Fume Hood requires no ducting and is available in 3 ft. & 4 ft. widths and 31.7 in. & 37.7 in. depths. Neutrodine Unisorb Filtration Technology offers comprehensive molecular filtration. eGuard communication software offers real-time monitoring on the user's phone or computer. From a remote location, data such as usage authorization, filter saturation detection, sash position & temperature may be observed & managed.

Erlab-proven Neutrodine Unisorb Filters are the heart of GFH Filtration Technology. Benchtop models include a fiberglass panelized liner. Models are available for carbon-only, carbon with acid sensor, carbon with formaldehyde sensor, or HEPA-only filtration. Filters are sold separately.

### Features

- Eco-Foil air foil with aerodynamic Clean-Sweep airflow openings
- Cord-Keeper Slots on left and right side of air foil
- Removable front and side panels, and front and interior service access panels for access to plumbing & electrical wiring
- By-pass airflow design
- Glacier white powder-coated steel exterior
- Chemical-resistant, fiberglass-reinforced, composite panel liner
