

Face Mask Ear Relief Bands

Description • Relieve the tension and irritation caused by elastic bands that rub behind the ears after prolonged periods of face mask use, especially during COVID-19

- Ear loops on face masks (sold separately) fit into notches to alleviate pressure on the ears
- Adjustable - Multiple notches on the semi-flexible plastic band allow users to choose their comfort level
- Length can also be shortened using scissors
- 10 per package
- Dimensions (L x H): 8-516 x 1716 in.
