

## California Pacific Labs Chemical Drum Seal Tags, Lock Out Tag Out

**Description** • Chemical Drum Seal Tags, Lock Out Tag Out, for Drum Safety Clamps

- These Lock-Out Tag-Out safety tags for use with CFS Drum Lock Safety Clamps
- Heavy-duty, high-density, polypropylene 'seal' allows for locking & tagging a chemical drum
- These seals can be used for Lock-out, Tag-out (LOTO) of a chemical drum while either offline (use with a Clamp with a Solid Filter, Part # CFS-1120) or while on-line (use with Clamps that have holes for feed tubes: CFS-1117, CFS-1118 or CFS-1119)
- Features advanced 13-point locking device and slotted arm for applying a tag as needed durability

Features:

- Use in conjunction with our Chemical Drum Safety Clamps for compliance with the FDA's FSMA (Food Safety Modernization Act)
- Can only be opened once the seal is destroyed
- Adjustable strap breaking strength: 110 lbs
